The team at Sydney Spine and Pelvis Physiotherapy Centre is focused on the wellbeing and safety of all our clients and team.

Practice

Patients attending SSP Drummoyne for an appointment will be asked to follow a strict protocol to enter the practice to maintain the sterile environment within the practice to protect staff and other clients. This includes Temperature checking, compulsory use of hand sanitisers and wearing a mask. Your Physio will also wear a mask and clean all treatment surfaces after every session. All common surfaces including bathrooms, door handles and reception are regularly disinfected.

All our team will sanitise or wash their hands before and after each interaction.

To Assist with Social Distancing

We are asking patients to assist with social distancing and to therefore attend no more than 1-2 minutes prior to their appointment and please put your mask on before entering the building.

We are also asking that each patient arrives on their own unless under special circumstances, such as mums and bubs, or if in need of a carer. You are welcome to call reception with any questions or concerns.

For More Information

What we ask of you

If you answer yes to any of the following questions we ask that you call the practice to discuss this with us and we will happily reschedule your appointment:

- * Any recent travels to hotspots in the last 14 days.
- * If you have had any flu-like symptoms – sore throat, cough, and fever in the past week
- * If you have had any contact with a confirmed coronavirus case

We thank you for your support and assistance in ensuring that we are able to continue to focus on your wellbeing and our community in a safe and respectful way.
